# Census 2020 and Redistricting in Texas: East Texas

Senate Redistricting Hearing  
January 29, 2021

 @TexasDemography

---

## Census 2020

- Census counts used to reapportion the U.S. House of Representatives, determining how many seats each state gets.
- Census counts used by state officials to redraw congressional and state legislative boundaries to account for population shifts.
- Census derived data are used to allocate over \$1.5 trillion in federal funds to support healthcare, education, transportation, and other service programs.

---

## Redistricting Dates

- Apportionment File sent to POTUS on ~~12/31/2020~~- now by 4/30/2021
- Redistricting Data File (Public Law 94-171 File) received by the Governor no later than ~~April 1, 2021~~ now after July 31, 2021
- PL 94-171 released to states in groups of 8 states per week, with one week prior notice
- PL 94-171 File to include:
  - Race, Hispanic origin, 18 and older, occupancy status, and group quarters by type.
- Data available at [WWW.CENSUS.GOV/RDO](http://WWW.CENSUS.GOV/RDO)

# Population Growth and Projected Congressional Seats of Select States

	2010 Population	2020 Population	Numeric Change 2010-2020	Percent Change 2010-2020	Projected Congressional Seats Added
United States	308,745,538	329,484,123	20,738,585	6.7%	
<b>Texas</b>	<b>25,145,561</b>	<b>29,360,759</b>	<b>4,215,198</b>	<b>16.8%</b>	<b>3</b>
Florida	18,801,310	21,733,312	2,932,002	15.6%	2
North Carolina	9,535,483	10,600,823	1,065,340	11.2%	1
Arizona	6,392,017	7,421,401	1,029,384	16.1%	1

Making Texas Count
Self Response Reports
Redistricting Resources

Every ten years, the country conducts a census to count every person in the United States. Census counts are used by state and local officials to redraw congressional, legislative, and local boundaries to account for population shifts. TDC has prepared the following data products to serve as a resource for legislators, stakeholders, and others interested in the Texas redistricting process.

**State Level**

Slide deck including Texas demographic trends, projections, important Census dates, and other relevant information. [PPTX \(3.8 MB\)](#) [PDF \(1.7 MB\)](#)

Maps of Numeric and Percent Change between 2010 and 2020 in Texas counties [PDF \(1.4 MB\)](#)

**District Level: Maps and Tables of 2010 Population, 2020 Projected Population Change**

Maps contain the numeric and percent change in Texas counties by Senate district. Tables contain the population and projected change by race/ethnicity for counties that are part of the district.

Texas Senate District 17, PLANS172

Counties included wholly or partially in Senate District 17: Brazoria, Fort Bend, and Harris.

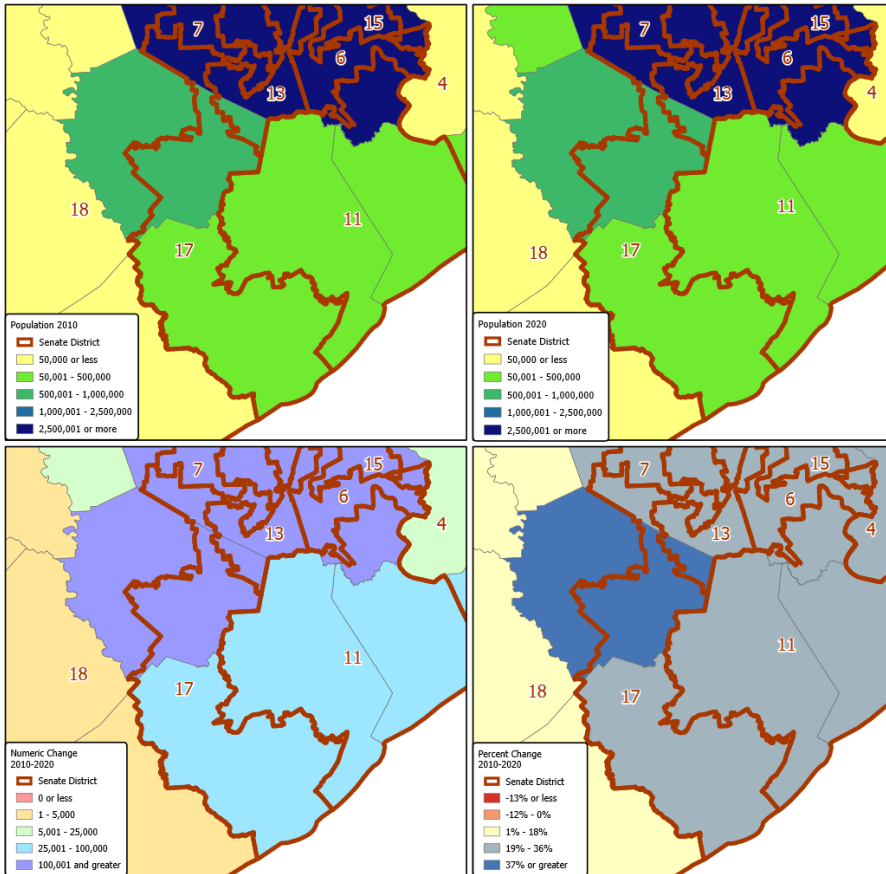

Between 2010 and 2020, all counties in Senate District 17 are projected to increase in population size, with Harris County driving much of this growth. During this time, all race/ethnicity groups are projected to increase in population size.

See Population Change [Maps](#) and [Tables](#) for additional information.

# Census Bureau Announces Quality Assessments for 2020 Census

DECEMBER 07, 2020  
RELEASE NUMBER CB20-CN.131

SUBSCRIBE |   

## Census Bureau Continues Practice of Evaluating Decennial Count

**DEC. 7, 2020** – The U.S. Census Bureau announced updated plans for releasing information about quality along with the first results from the census, including releasing an unprecedented number of data quality indicators.

Each decade, the Census Bureau conducts extensive evaluations of the census and releases a variety of data quality metrics. Given the unique challenges that the COVID-19 pandemic posed to the 2020 Census, the Census Bureau plans to release additional data quality metrics.

In addition to upcoming quality metrics planned for release, the Census Bureau will engage in other evaluations of the 2020 Census in the coming months and years, including:

- Working with outside experts to evaluate data quality.
- Conducting extensive evaluations and assessments of 2020 Census operations.
- Comparing the 2020 Census results to other population totals.

All of these efforts support the evaluation of the quality of a census – analyzing the process, reviewing data carefully and comparing the results to other population totals.

# 2020 Census Detailed Operational Plan for: 24. Count Question Resolution Operation (CQR)

MARCH 31, 2020

VERSION: 1.0

PREPARED BY: DECENNIAL CENSUS MANAGEMENT DIVISION

## Operation Purpose

The purpose of the 2020 Census CQR is to provide a mechanism for governmental units (GUs) to request a review of their official 2020 Census results. The 2020 Census CQR is the final operation by which updates to the 2020 Census data can be made. Tribal chairpersons and the highest elected officials (or their representative) from state and local governments in the United States and Puerto Rico can submit a CQR case to request review of the official 2020 Census counts of population and housing, and to correct boundary, geocoding, and certain coverage issues.
