Regarding: Senate

Message:

I strongly support Senate Bill 50 because it allows people with disabilities and entities of employment to work together and come with realistic goals and expectations for work. This bill would make it easier for those on a Medicaid wavier program such as myself to seek job opportunities by having a more individualized and targeted employment plan. Texans with disabilities on wavier programs deserve the right to seek work and carry out their desired job duties and employment for disabled Americans is a problem all across the country and it is my belief that this bill would show other states that if Texas could have an intergraded and competitive work plan for all of their wavier programs, they could have one too. Thank you.
