Title: Redistricting Proposal
Organization: Self
Address: [REDACTED]
City: Odessa
State: TX
Zipcode: [REDACTED]
Phone: [REDACTED]

Affirm public info: I agree

Regarding: Senate

Message:
Improved Redistricting Based on 2020
Census Data

-Our map provides a balanced population between the districts that meet the ideal recommended population for senate districts according to the 2020 census data.

- The proposed districts would link communities of interest in sharing representation in the Texas senate by having a "northern/ panhandle" district that includes major agriculture industry, multiple institutions of higher education, major municipalities connected with interstate highways (Lubbock/ Amarillo), and highways infrastructure that would provide general ease of access for the district.
- The proposed south/ Permian Basin centered district would link similar major municipalities including Odessa, Midland, San Angelo, and Abilene, constitute a major energy industry centered district, contains highway infrastructure that would provide ease of access to the contagious district, and overall has a greater geographical design and better links communities of interest.

Thank You & Best Regard,
Jana Smith
