Affirm public info: I agree

Regarding: Senate

Message:

I am a constituent of Senate District 10 and am appalled by the addition of Parker and Johnson counties to my district. This is clearly a partisan stunt. The citizens of the community of the current Senate District 10 have different priorities and also needs than Parker and Johnson counties residents. The demographic makeup of the current Senate District 10 is incredibly different than Parker and Johnson counties. By adding them into District 10, you'll be diluting the representation of the current population.

The Parker County community has more in common with the communities of its current District 30 and should remain in that district. Likewise, the Johnson County community has more in common with the communities of its current District 22 and should remain in that district.

The boundaries for Senate District 10 should remain as they are currently.
