Message:

I am a 75 year old African-American female who resides in State Senate District 10 and State House District 97. I moved to House District 97 in 2019. This move has had a negative impact on my representation in the State Legislature as my State Representative apparently does not regard me as his constituent even though I live in the district he represents. Phone calls, emails and several text messages have resulted in no response from him. This lack of responsiveness on the part of my State Representative has left me with the feeling that he does not feel he is accountable to me. If Beverly Powell was not my State Senator, I would feel that I had no representation in Austin at all. This is why I am concerned about your proposal to redraw the lines for Senate District 10, which will result in diluting the voting power of myself and other people of color who reside in this district.

I ask that the proposal to change the make-up of the voters of State Senate District 10 be reviewed again and allow the current map to remain as it is.

Thank you.
