Phone: [REDACTED]

Affirm public info: I agree

Regarding: Senate

Message:

Sadly it is extremely common to disenfranchise the poor, create a racial bias, and allow for a minority to rule over the majority of voters. It's pathetic how obvious the state has exploited the public through the use of, the sadly lawful, process of gerrymandering to attempt to keep a control over areas they wouldn't otherwise have any chance of winning in a fair election. I would greatly appreciate seeing district lines that were not an obvious attempt to squelch black, minority, poor, LGBTQ, areas. I understand that both Republicans/Democrats will both use this process. Personally, a third party who is apolitical should be in charge of this, and then verified to be statistically fair to the people voting, by a second apolitical group for verification. Anything less should be seen as an attempt to silence the votes of people that are unshared by the members of this committee.
