Message:

our senate district and congressional districts are much too large. Combining fort worth with rural parker county leaves us underrepresented in congress and ignored by our representative. The senate district spans 14 counties and goes from collin county north of dallas all the way to wichita falls. It is much too spread out and oddly drawn to have a senator able to cover without spending all their time driving. It has grown to over 1 million constituents. Collin county does not need to carry that much weight on a mostly rural district.
