Any new map should represent the voting patterns of TEXAS.

Districts should reflect commuting patterns.

Important for you to take into consideration future suburban growth when drawing the maps so as to avoid the disproportionate representation that we experienced at the end of the ten year cycle.

Communities of interest should be respected. Bridges between urban areas should be avoided.

We are a Republic and you are elected and accountable to the people of Texas. There is no such thing as a neutral panel.

One person One VOTE! Ineligible people need to be purged from voter roles.
