Redistricting of voting districts (by either political party) is a downright shameful act. Federal and state voting district boundaries should be straight lines or equal to the county lines. Anything else is unfair and hurts voter turnout, is dishonest.

As far as Texas Senate SB7, that's a crock of cowpie designed to hurt minority and senior citizen voter turnout. Anyone in Texas Congress that votes for SB7 is a criminal, and shall be immediately censured. voted out and shamed in public.
