Regarding: Senate

Message:

O Independent
Commission (this
takes the
accountability away
from our elected
legislators and
turns it over to
people with no
accountability)
NO new maps along
the way (this is
intended to open the
door for Dems to
tear apart every
detail and delay the
process)
NO ethnic silos
(this eliminates
true diversity)
NO we do not want a
drawn out process
that puts the
decision-making into
the hands of a
Judge, versus our
elected legislators.
YES we want

districts drawn to include areas/people with shared interests:

- Rural areas have unique needs
 - Schools
 - Power and utility needs
 - Diversity

YES we want rural districts to have rural representation, not to be lumped into an urban district with different needs (this is just another way to word #5 above)

I want to express my concern about re-districting of urban areas in ways that lessens representation of the rural communities. Rural areas have unique needs for schools, utilities, and diversity issues and I am writing to request that those interests and concerns are preserved. We do not want the decision to be taken away from our elected legislators and given to a Judge. I oppose an independent commission for this process because it would take away local accountability

and new maps that
fray the unity and
cohesiveness of the
common interests of
those who dwell
within the
boundaries of
existing rural
areas.

Please vote NO to
redistricting the
way it is being
proposed.

Thank you,
Rhonda
