Message:

I live in a community in Georgetown called [REDACTED], and there is no reliable public transportation anywhere around for an area in Georgetown that has exploded in population and development in the past 4 years. Our area needs to be its own district and be represented as such. We are a diverse community with progressive values, lots of renewable energy and open minded people, but we are not represented at the state level. That needs to change. We are an affluent community with a lot of children growing up here - we deserve representation. Thank you.
