Subject: Redistricting and Fair Representation in Texas

To the Honorable Committee Members,

My name is Dr. Angela S. von Trytek, a veteran of the United States Army with service in Operation Desert Storm/Shield and Operation Enduring Freedom. I reside in Fort Worth, Texas, and I submit this testimony to voice deep concern about the redistricting process currently underway.

As someone who gave years of my life defending the Constitution, I find it unacceptable that political manipulation continues to jeopardize the foundational rights I served to protect—particularly the right to vote and to be represented fairly. Gerrymandered maps not only distort democratic participation, but they also silence the voices of veterans, rural families, and working-class Texans.

This is not a matter of party politics. It is a matter of constitutional integrity.

Texans deserve a redistricting process that reflects the demographics and needs of our communities, conducted with fairness, transparency, and public accountability. Elected officials must rise above partisan interests and fulfill their oath to uphold the Constitution with honor.

Veterans across this state are mobilizing. We are watching. And we are calling on this committee to restore trust in our democracy by drawing maps that empower—not marginalize—the people of Texas.

Let this be a moment of moral clarity. Choose integrity over influence.

Respectfully submitted,

Dr. Angela S. von Trytek
