Message:

I am strongly opposed to these shameful efforts at unjust redistricting. This brazen move by the Governor and the DOJ to increase Republican representation in the U.S. House by taking it away from communities of color is nothing more than an illegitimate power grab. It is blatant racial discrimination. How districts are drawn affects every political issue, from the economy to healthcare to public education. If politicians are elected from districts that don't reflect the population, you end up with situations where politicians support policies that the vast majority of people oppose, or do not vote in favor of policies that the vast majority of people support. When politicians manipulate maps for personal or political gain, it prevents residents like me from having our voices heard on all of these policies that affect us.
