Message:

I am against any more redistricting in Texas, it is a bad idea and in the past it has resulted in further disenfranchising minority voters who have a right to chose the candidates they want to represent them.

Texas is already one of the most gerrymandered states in our country, please don't make a bad situation even worst by gerrymandering again, this time at the request of Trump. Doing that may be legal but it is unfair and immoral.
