It's the same to have this map to take away from the people that we want to elect to serve us in our own neighborhood this is so racism at its best and a way to destroy our black community it's wrong and for years black have been ignored and they still want to keep their foot on her neck by taking her home, raising taxes to get us out of our home when will it end on the children ones and built this country and the fact that 25 white South American can come and get land and money from the government Chinese Japanese everybody with black folk that deserve reparation. This so disrespectful we will take a stand against it all and this is for one man that's running the government has been convicted of crimes it's saying what you all are doing. We spend money all around the world and don't even take care of people in our own country the richer and the poor they poor that's the way it always always been. It's so selfish you got four or five houses in different countries and want everything.
