Committee Members, as a Texan who has been living in one of most gerrymandered states in the country, I'm appalled Trump and Abbott have concocted this scheme to further ensnare voters. Our right to a fair election are being stolen through this system. I'm a proponent of districts being drawn by an unbiased commission maybe even AI in the near future, but I refuse to let a political party imprison me in my own state. Especially when that party is willing to use Texas as a conservative Petri dish for some of the most extreme policies in the country, including a six week abortion ban, school vouchers and now this blatant attempt to rig the midterm elections. I want representatives who are responsive to the needs and concerns of Texans, not Trump.
