Affirm public info: I agree

Regarding: Congressional

Message:
Good afternoon,

My name is Cecelia Fontenot and I am a constituent of Congressional District 9. I am happy with my elected official, Congressman Green, because he is an elected official who will fight for us and has always done so. I am not going to like it if my representative is lost. The republican administration feels they are losing and that is why there are doing a rare redistricting which is really gerrymandering. This is not the way to gain the voters trust and respectability.

To the people who are voting for this redistricting, don't you have family members who reside in these congressional districts? This is going to hurt them. You all need to be brave against Trump and his attempts to gerrymander us. We are Texans! As Texans, we fight for Texans and not for those in D.C. Your character and your integrity is at stake.
