Message:

Are you serious right now with this proposed redistricting map which has things like District 27 running from Panhandle to the Gulf? Why? Do you know or even care about the problems this would cause with district elected, LOCAL officials? Or are you only caring to try to win a district? If you want to win districts, start holding townhalls and talking to your constituents, representing them.

You know this will not hold up in court and taxpayers will be out money when this is fought & overturned. A Pre-K student could draw better lines, that actually improved taxpayer lives. That's where votes will follow so stop with this obvious redistricting to turn districts red that you know aren't legal. Do your job and draw it where it makes sense and serve your taxpayers to warn your votes.
