Message:

Every person in our state deserves to have their voices heard and voting is a Constitutional Right. What you are trying to do is right the system instead making the system work for everyone in this state. It is not right and you know it is not right. Our founding fathers did not invasion that our democracy would work against the very people it is supposed to support. If you can not run on issues and win with ideas then you should not be representing the people of your districts. No matter your party affiliation you are still supposed to represent everyone!
