Message:

Redistricting to win more seats with a lower percentage is going to be a miscalculation you wish you can take back. Republicans have been in power for over 30 years and we are regressing in terms of education quality and cost of living. Also, the bitcoin mining factory in Granbury, Texas is destroying the health of the residents due to very loud noises noted on decibel readers. There are retired residents developing worsening conditions due to constant noise above 85 db and killing live stock. Things will only get worse if we do not regulate these companies. Allowing this much greed is a sin and shows the hypocrisy of the "Christian values," of your party. I hope justice is served and the courts show what you are doing is wrong and stopped. Mind you I am not for gerrymandering when either party does it. Allow for the majority of the people to decide what direction we choose to go.
