Message:

I am so disappointed at this special session to create new district lines without a new census - but with the explicit direction to manipulate votes for Trump.

You are all wasting time and not representing the people of Texas. You are spending time with BS political theater and bastardizing the will of the people.

Please reflect on your oaths and why you went into public service. Please make our lives better, not worse. A couple of quick ideas: (1) A/C in all government buildings, inclusive of incarceration system (2) free lunch for public school children
