Message:

Look, you've already stolen the 2024 Presidential Election and now you're wanting to steal the 2026 midterm elections. We the people will not stand for this! What you're trying to do is outrageous. It's also illegal. You can't just gerrymander any time you feel like it, just because Trump said to do it. You have subverted the constitution, federal and state laws, and the will of the people and you're continuing to attempt to go even further. Texas is already gerrymandered enough so that Republicans always retain control. And now you're wanting to make that permanent for the entire country. This is bullshit! Fuck off with your smug "we can do anything we want" crap. We're tired of it and we're not going to take it any longer!
