Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

This Senate hearing on redistricting should not be held. This mid-census redistricting itself is wrong. Texas has sparked a redistricting war between the states by trying to further gerrymander already gerrymandered Texas. Other states will now do this too, making an already unnecessarily hostile relationship between Republicans and Democrats worse simply because Donald Trump likes the chaos that hostility engenders. Chaos and hostility make it harder to get the actual people's work done, leaving the focus ever more on culture wars and other distractions from what we the people actually need our state government to be working on. It is also a disenfranchisement of many communities of interest. Please put a stop to this redistricting hearing and the whole redistricting process immediately. Thank you.
