First Name: Jessica
Last Name: Ramirez
Title: N/A
Organization: Self
Address: [REDACTED]
City: Dallas
State: Texas
Zipcode: [REDACTED]
Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

The decision you will be making- involves changing lives - I personally feel it is an attack on my people. We are a majority-minority state, but I fear if we don't fight back, if we don't stand for what's right in the lifetime, we will watch you kill off decades of progress for Texans You're including us today but don't care what happens to us tomorrow. During this legislative session I was extremely disappointed by your lack of integrity. Excluding us in so many ways. We are not fairly represented. The data clearly shows it; in 2025 you hate that minorities now make up the majority of Tejas and you want to control that even while know how much the census is costing Texas. This misrepresentation and miscount have affected my OWN community. I'm in a rural part of southeast Dallas my neighborhood was annexed into Dallas in the 70's. Kleberg/Rylie is a product of horrible re-districting. This year alone we are finally seeing some progress thanks to our elected officials and Congresswoman Crockett and her mobile office hours it has made such a difference in my community to see her in the trenches with her constituents We finally have a seat at the table, and you are pulling the rope of hope right out from MY community. This needs to be addressed at the source, all this due to some silly lines drawn up from a guy in Virigina. Really? Transparency in government depends on your consistency and accountability. Your vote on these decisions will impact our schools, infrastructure, environment, and quality of life - at all angles don't limit community oversight and our right to choose effective leaders for ourselves. Stop eroding public trust, we face so much as it is and this mid-census redistricting is deeply concerning. But you constituents are here, Texans are here, today to tell you to your face that this is WRONG. Listen to them. You answer to us. There is no clear justification to what you are doing. We all know it is illegal on all levels, but we bow down to no one here in the Lone Star State.
