Message:

Texas will never move forward if we keep acting like the other side of the isle is the enemy. Redistricting is going to deepen the disdain between fellow Texans and move our state backwards. All citizens of this state deserve fair representation. If you don't believe that you are in the wrong profession. Stop sowing hate, or that is all we will reap in the future. Do not go through with this. Do what's right for the future of Texas, not the current federal government.
