Title: N/A

Organization: Self

Address: [REDACTED]

City: Stafford

State: Texas

Zipcode: [REDACTED]

Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

Redistricting the state of Texas is a form of pressure to silence us. As the younger generation grows, we are constantly being forced under conditions that discourage and demotivate us from voting and overall being active in our community and country. Redistricting not only promotes this mindset but continues feeding older generations mindsets that cannot handle or recognize change, and change that is good. YOU ARE ATTEMPTING TO SILENCE US against our will and frankly against our first amendment right. You simply can't say "well you should go vote then" when under these conditions, it seems that our vote doesn't matter, that laws will change to bend against our vote.

To take away, is this the way you want to set up the future for your children? We are the future now.
