Message:
Politicians should NOT draw political districts.

It's a CLEAR conflict-of-interest.

Yet here we are, once again, one party has fled Texas as a result of total overreach by another party and their slavish adherence to the edicts of attempted usurper and petty would-be tyrant.

Implement independent redistricting commissions similar to California's and select members from the Texas public and outside of the party structures to draw the state and federal district zones.
