Message:

We do not want redistricting done. It is mid decade and it is unprecedented to redistrict, when the newest are barely 4 years old. On top of that, this special session is about helping those who have suffered terrible losses due to the flooding. Our system is broken. Texans are dying. But rather than care about us, the people you work for, you are catering to men who are owned by corporations. Republicans know that they have messed up and the only way they will win in the midterms is if they gerrymander themselves the votes.

I should be in the same district with my neighbors!
With my community.
Gerrymandering should be illegal period. Do your job and take care of Texans, the whole reason you even have a job.
