Message:

Let's not call this redistricting, call it what it is, gerrymandering. This is merely an attempt to power grab even more for the GOP in Texas to appease a want to be king and silence voters. The GOP has been in charge of this state for a majority of my life yet they keep complaining they need to fix things, you're not fixing anything, you're merely breaking the things you keep breaking. You continually fail to lead and it's not only costing Texans money but it's costing us our lives, from the freeze, to Uvalde and now the tragic events in Kerr County. No one in the GOP takes responsibility, nobody is punished and nobody wants to do a damn thing about it while fellow Texans suffer and pay for it with their lives.
