Message:

It is well understood that this current round of redistricting is nothing but a thinly veiled political machinations to suppress the vote of those who oppose both the Texas and national gop agenda. Our area was subject to redistricting before the previous US Congressional election. The effect was to align our geographic area with those some 10 to 15 miles north of our area, mainly rural suburbs and towns that have little in common with our demographics. This is not an effort to contract a representative area it is simply a program to suppress opposing viewpoints. Enough is enough.

The simple solution would be to hire an outside fully independent organization to objectively draw districts using proven scientific methods. By fully independent I mean an organization with no actual or perceived political ties to any political party. They should also be subject to signing an oath stipulating party neutrality. Only in this way can the people of Texas know that their vote counts, that their vote is not being suppressed and that the will of the actual majority is being heard and followed. To do otherwise only confirms the biased political agenda being foisted on our residents and voters.

Do the correct thing for a change. We want our voices heard and respected not suppressed.
