Regarding: Congressional

Message:

I am very concerned about the unprecedented proposed congressional map change. These maps were just updated with Census data in 2021 and now there's a proposal to update them out of cycle without new data and with an intent to bias election outcome. I urge you to vote against any partisan redistricting and against any redistricting done without new valid Census data. Texas has bigger things to be addressing right now, like disaster response after the horrific flooding in central Texas.
