Mr king and committee

Redistricting is unnecessary and this is a waste of time considering the need for flood relief in our state. We have been

gerrymandered enough. Harris county has been carved enough. We are the largest county, the largest tax base/population and yet

your party wants us to not have proper representation. Being represented by a suburban/rural representative does not meet our

needs. Just as yall have taken away our rights in our local school district, you should not be allowed to take our rights away since yall

redistricted in 2021. You should wait until the next census. You know damn well that the doj actions are purely racist.. these seats

were drawn based on what yall saw as allowing people to be properly represented. Carving Harris county like a turkey would be wrong

.. and yall appear to be trying to do this without providing maps. Bs on that...bs on the Republican Party for caving into the convicted

criminal which runs our country..

by the way, your people cutting off sound from those you don't want to hear by claiming "technical issues". Is bs.

Shame on your party for screwing the voting rights of people

Thanks to senators Alvarado, Hinojosa and especially Miles for their attempts to stop this absurdness

NO TO REDISTRICTING UNTIL 2031
