Message:

I feel the redistricting of texas will cause more harm then good. We have people who arent represented due to their district. And also some of the counties would be disporportional especially in rural communities. Giving more power to one of the parties is unconstitutional and against what you were sworn in. And your going against your consistuents lives and benifits for selfish reasons. If you want to be voted in the next midterm. Then focus on the efforts of rebuilding after the floods that devastated us on the 4th of July. Focus on our failing power gride. Redistricting does nothing but harm the people that need to be represented. For the people with no voice like our children who must live with the repercussions of your decision. The legal residents who want to live in safety. And our precious grandparents who are too sick to vote.
