Message:

Stop screwing around with this gerrymandering BS, help the hill country, and go home and get off the tax payers' dime.

We the people are supposed to choose the politicians, not the other way around. This is a hostile take over of the people's will by the politicians, and any Texas voter - red, blue, stripped or paisley - should be offended by having their vote reduced to a foregone conclusion.

Leave the BS for shit-hole banana republics, stop the stupid steal of votes by map redraws, and hurry up and help central Texas.
