Message:

I would like to see any redistricting be more aligned with the people who are actually in areas. We do not need more republican or democratic specific seats. We need a fair representation of the people in clearly identified areas without completely unfair gerrymandering. I want to see candidates who are working for their areas and not spread out widely with areas that don't represent the people. Let the people vote and find the best candidates for their residents. Please allow us to be proud of our state and the work we are doing because right now everyone I speak to, both sides, are NOT happy.
