Message:

The timing of the redistricting effort in the middle of the decade is highly suspect to be political rather than a true legislative and legal purpose. The DOJ has already shown patterns of being weaponized rather than enforcing American, people led laws.

It was already legally approved that the district lines were correct and fair by Texas legislators of 2021. The fact that a court had yet to resolve the legal challenge of the redistricting, filed under the Voting rights Act, and now it's under discussion to redirect again before it has been resolved, demonstrates the political forces at work rather than districting to properly fairly represent the diverse population of Texas citizens.

Vote no on redistricting! The timing is suspicious to Trump wanting to win more Republican seats in midterm. Don't give in to fear of Donald Trump and being oriented toward absolute power rather than consensus to the many voices of America, which is called democracy. History is watching you. Voters are watching you. We want consensus in our legislation. Do the hard work to serve your country with honor. Please vote no.
