Message:

Dear Chair King and Members of the Senate Congressional Redistricting Committee,

I have sent to you via email an expert witness report prepared by Dr. Monica Munoz Martinez on behalf of the Fair Maps Texas plaintiffs for our litigation challenging Texas' 2021 state legislative and congressional district maps. This report examines the history of voting discrimination in Texas against African-American voters, Asian-American and Pacific Islander (AAPI) voters, and Latino voters. It also examines how other types of discrimination against racial and ethnic voters depress their political participation.

I could not attach this document to the Senate's submission portal, which is why I am sending it via email.

Thank you so much for your time,
Stephanie Swanson
