Affirm public info: I agree

Regarding: Congressional

Message:

Regarding unscheduled redistricting map proposals, scheduled at a 5 year point, vs 10 year scheduled tied to Census data.

Addressed to those Texas State elected representatives who are within government to serve all Texas residents / constituents, not just 51% of the State.

You have been elected to serve the residents of the State of Texas, NOT the State of Texas, nor the President of the United States.

If you are serious about setting up a fair method (and not gerrymandered, which has been done for decades) for elections which will require elected officials to clearly communicate & educate all constituents the reasons they should be elected, I recommend you look to other states' solutions. Start with a basic grid system - don't try to carve out sections. Just grid the state out.

The answer to our divisiveness is not to ignore feedback, but to bring everyone to the table. If you believe in the validity of your arguments & ideas, then manage the communication with your constituents, listen & convince.
