Message:

Tom Nobis from Harris County representing myself a retired homeowner.

There are many plans which destroy the current congressional relationships that exist today and have been maintained over 50 years of redistricting that occurred while I lived in Texas. These plans should be eliminated as they will be very confusing to the voting public. Those to eliminate for this reason are: C2202, C2203, C2211, C2212, C2213, C2214, C2217, C2218, C2233, C2235, C2245, C2247, C2248, C2249, C2251, C2252, C2253, C2256, C2257, C2268, C2270, C2277, CD2283, & CD2285

There are Primarily Currently 8 Congressional Districts in Harris County with an additional little bit of CD22. The demographic breakdown shows CD29 Majority Hispanic, CD18 More Hispanic than Black, CD9 More Black than Hispanic and CD7 more White than Hispanic

Of the remaining preferred Plans, the demographics remain the same as currently. The intent of the redistricting is to solve the issues raised by the Department of Justice. My preferences in order are:

1. C2246 – Andrew Quick
2. C2215 – Bobby Anderson
3. C2271 – Andrew Quick
4. C2279 – Chris Leonchik
