EMPOWERING OUR FUTURE: YOUNG VOTERS READY TO MAKE THEIR VOICES HEARD

I'm excited to share that we recently held voter registration events at our local District 23 high schools through our District 23 Student Advisory Council. By speaking to our students about the importance of voting, we are empowering our young adults to engage in the democratic process. A heartfelt thank you to all the schools that participated: Ferris High School, Horn High School, ILT Arlington-Grand Prairie High School, Life School Oak Cliff High School, North Mesquite High School, and Pace Duncanville High School. It's inspiring to see these future leaders taking steps to prepare for the real world, ready to make their voices heard.

As we approach the upcoming election, I encourage everyone to embrace their civic responsibility. Let's support our youth by voting and showing them the importance of participating in our democracy. Together, we can make a difference! Stay engaged and go vote!
