### **Sen. Campbell Helps Pass Key Transportation Bill**

*SJR 1/HB 1 to Add Nearly \$1 billion a year for Texas Roads*

AUSTIN-- State Senator Donna Campbell issued the following statement upon passage of the transportation bills in the House and Senate Monday night:

"Today the Legislature removed road blocks to economic growth by providing long-term, sustainable funding for our roads. This is the biggest boost in highway funding in over a decade and it was achieved without raising taxes or tolls. I am proud of the work I was able to accomplish for the San Antonio and Central Texas drivers who sent me here to fix our roads, keep commerce moving, and ensure our families stay safe on our highways. Best of all, we were able to achieve these results while protecting the bulk of the Rainy Day Fund for future emergencies."
