Senator Campbell Weighs In on Dripping Springs Bathroom Policy Meeting

AUSTIN-- State Senator Donna Campbell issued a statement prior to tonight's school board meeting in Dripping Springs to discuss bathroom policies and the concerns parents have expressed that male students may be allowed into girls' bathrooms.

"Public school bathrooms and locker rooms should be safe spaces - not social experiments that leave children vulnerable without privacy or dignity. I strongly encourage Dripping Springs ISD to support bathroom and locker room policies that reflect common sense, take every student's safety into account, and give full consideration to the concerns of parents in the most transparent manner possible. Anything less is disruptive to the learning process and fails to serve the education needs of all Texans."
